

DIPLOMATIC MS – DAIKIN INDUSTRIES UNVEILS SUSTAINABLE INNOVATIVE SOLUTIONS FOR METALWORKING AT AMB 2024

Diplomatic MS Spa (Daikin Industries), a leading global provider of advanced motion control solutions, will showcase sustainable solutions at AMB 2024 in Stuttgart, Germany, (Stand B74 - Hall 8). The company will feature innovative Hybrid Units, demonstrating the company's dedication to eco-conscious manufacturing.

Parabiago, Milan (Italy), June 5th, 2024 – Diplomatic MS Spa announces its participation in AMB 2024, the premier metalworking tradeshow (Stuttgart, Germany, September 10-14, 2024). With a focus on sustainability and energy saving solutions, Diplomatic will present its latest innovations at **Hall 8, Stand B74**.

According to Roberto Maddalon, CEO of Diplomatic MS Spa, "Our presence at AMB 2024 underscores our commitment to offer innovative and ecofriendly solutions to metalworking companies. This event allows us to showcase solutions that advance motion control technology while aligning with the strengths of Diplomatic and Daikin Oil Hydraulics Division." Diplomatic MS customizes Daikin products for the European market, adding value through adaptation. "Our chillers and hybrid units, originally from Japan, undergo enhancement at our Diplomatic plants in Italy to meet the unique needs of the European market," Maddalon added.

Advancing Sustainability and Efficiency

Diplomatic's primary focus at AMB 2024 is sustainability, a crucial aspect of modern manufacturing. In line with Daikin's Environmental Vision 2050, Diplomatic introduces revolutionary Hybrid Units tailored to benefit machine tool manufacturers:

- Industrial Chillers: Diplomatic offers advanced temperature control technology with the new AKL Chiller, enhancing component longevity and system reliability.
- Super Unit (SUT) Series: The Super Unit series amplifies power density, precision, and efficiency, offering remarkable versatility with tank and frame options to meet diverse industrial needs.
- Ecorich Series: Embodying power and efficiency within a singular unit, the Ecorich series combines hydraulic and electric technologies to deliver high-performance capabilities while reducing energy consumption and emissions.

A Range of Innovative Solutions

In addition to its focus on sustainability, Diplomatic will present cutting-edge products tailored for machine manufacturers:

- Servo Proportional Valves with Bus and Conventional Valves: Offering precise control and unparalleled reliability, Diplomatic's servo proportional valves are essential for achieving peak productivity and accuracy in metalworking.
- Electric Cylinders and Drives: BU Mechatronics by Diplomatic presents electric cylinders and drives, merging performance, precision, and adaptability to enable desired levels of automation and flexibility for metalworking.

Diplomatic MS Spa, a Daikin Group company – Headquarters in Parabiago (Milan), with a turnover of 163 million euros and six hundred employees at 31.12.2023 – designs and manufactures hydraulic and electromechanical components and systems for motion control in various application sectors. The Group is present on the market through the following brands: Diplomatic Motion Solutions for industrial applications, Hydreco Hydraulics for mobile applications, Continental Hydraulics for North America and Till Hydraulik for the German market. The Group has production plants in the USA, Japan, China, India, Australia, Italy, Germany, Great Britain, and sales offices in different areas of the world.
